

RRR000812

Jan. 8, 2008

Dear Ms. Summerson and Mr. Bishop,

1

[I hold strong moral belief against putting
any nuclear waste in the Yucca Mountains. I
also believe it is unsafe and way too risky.
We citizens are always told that nuclear
energy is safe, but over and over it has
caused health problems. Please protect the
US citizens and respect its Native American rights.]
Sincerely,
Therese Mackenzie
